Historically very important, this car is widely considered the very first 'McLaren'.

The foundation of 'Bruce McLaren Motor Racing Ltd' commenced when Bruce designed, built, prepared & drove this car to win the 1964 Tasman Championship, the NZ GP and Lady Wigram Trophy in 1965. F1 Champion Jim Clark drove this car in the Tasman Championship. He achieved 3rd in the Australian GP and later announced this as one of his best team wheels drives.
