

Duetto Spider advertisement – circa 2010

**1967 ALFA ROMEO SPIDER 1600
DUETTO RHD**

- **Engine:** 1570cc twin-cam four cylinder
- **Transmission:** 5 Speed Manual
- **Year:** 1967
- **Registration:** KHR 910F
- **Mileage:**
- **Exterior Colour:** Farina red
- **Interior colour and material:** Black leather

First registered by the Jack Walker Garage of Corsley in December 1967.

Acquired by the current owner in 2006 who commenced a comprehensive restoration and had the car repainted in its original rosso Pininfarina livery.

Since the award-winning restoration by Alfa Romeo specialist restorer Dave Hood, the Duetto has been maintained by Mr Hood and kept in professional dehumidified storage when not in use.

Until recently the car was exercised on a regular basis in the summer months, which included two trouble free trips to Italy. One was days after the restoration was completed in April 2007 to visit the Concorso d'Eleganza Villa d'Este at Lake Como and the other was for the Alfa Romeo Centenary celebrations in Milan in June 2010.

The car is sadly being sold due to the owner's work commitments not allowing him the time to enjoy it.

In 2006 the Spider was loaned to Alfa Romeo UK for their stand at the Goodwood Festival of Speed to support the launch of the new Spider.

The car has featured in several national and international magazines, including Stephen Bayley's magnificent history book on automotive design, Cars.

This car is very well known within the UK Alfa Romeo Owners Club having been continuously owned by Alfa Romeo Owners Club members since at least 1978.
